

National Reference Center for Diseases in Non-Human Primates

The National Reference Centre for Non-Human Primate Diseases (CeRMaPri) has been established at the Rome headquarters of the Istituto Zooprofilattico Sperimentale del Lazio e della Toscana "M. Aleandri" in 2024 (Official Journal no. 225 of 25 September 2024). CeRMaPri serves as national point of reference for the diagnosis and management of diseases affecting non-human primates.

In addition to its institutional foreseen activities, the National Reference Centre offers a wide range of diagnostic services.
